Bibliographia Aethiopia II Hans Wilhelm Locket, 1998 Erstmals wird hier die Fülle der englischsprachigen Äthiopienliteratur geordnet dargeboten. In 100 Sections führt der Autor alle für die wissenschaftliche Beschäftigung mit Äthiopien wichtigen Buch- und Zeitschriftenbeiträge zum Beispiel zur History of Research, Archaeology, Religion, aber auch Fragen der Sociology, Agriculture, Zoology und Medical Sciences auf. Wie im Falle der deutschsprachigen Literatur (Bibliographia Aethiopia: Die äthiopienkundliche Literatur des deutschsprachigen Raumes = Äthiopistische Forschungen 9 [1982]) berücksichtigt der Autor auch alle ihm zugänglichen Besprechungen, womit bei einer Aufnahme von mehr als 24.000 Titeln eine Art Bibliographic Encyclopedia entstanden ist.

The Oxford Handbook of Ethiopian Languages Ronny Meyer, Bedilu Wakjira, Zelealem Leyew, 2023-05-04 This handbook provides a comprehensive account of the languages spoken in Ethiopia, exploring both their structures and features and their function and use in society. The first part of the volume provides background and general information relating to Ethiopian languages, including their demographic distribution and classification, language policy, scripts and writing, and language endangerment. Subsequent parts are dedicated to the four major language families in Ethiopia - Cushitic, Ethiosemitic, Nilo-Saharan, and Omotic - and contain studies of individual languages, with an initial introductory overview chapter in each part. Both major and less-documented languages are included, ranging from Amharic and Oromo to Zay, Gawwada, and Yemsa. The final part explores languages that are outside of those four families, namely Ethiopian Sign Language, Ethiopian English, and Arabic. With its international team of senior researchers and junior scholars, The Oxford Handbook of Ethiopian Languages will appeal to anyone interested in the languages of the region and in African linguistics more broadly.

Grass-roots Justice in Ethiopia Alula Pankhurst, Getachew Assefa, 2008 This book presents a timely review of the relations between the formal and customary justice systems in Ethiopia, and offers recommendations for legal reform. The book provides case studies from all the Region of Ethiopia based on field research on the working of customary dispute resolution (CDR) institutions, their mandates, compositions, procedures and processes. The case studies also document

considerable unofficial linkages with the state judicial system, and consider the advantages as.

Ethiopian Americans W. Gabriel Selassie I, 2025-01-09 Explore the history, culture, and lived experiences of Ethiopian Americans in the USA. Ethiopia, in East Africa, is the second most populated country in Africa, home to over 125 million inhabitants. For centuries, many Ethiopians had little exposure to the outside world, and even less to Americans. However, that started to change in the 1970s. In 1974, a military-backed government deposed Emperor Haile Selassie I, and many Ethiopians emigrated to the West. Today, large populations of Ethiopian Americans live in cities such as Washington, D.C., Los Angeles, and Minneapolis. This book offers an accessible and detailed glimpse into their everyday lives. It includes an overview of Ethiopian art, media, and cuisine, biographies of accomplished Ethiopian Americans, and a revealing look into the ongoing struggle for equality and representation that many Ethiopian Americans experience.

Ethiopia Paulos Milkias, 2011-05-18 This book is the most complete, accessible, and up-to-date resource for Ethiopian geography, history, politics, economics, society, culture, and education, with coverage from ancient times to the present. Ethiopia is a comprehensive treatment of this ancient country's history coupled with an exploration of the nation today. Arranged by broad topics, the book provides an overview of Ethiopia's physical and human geography, its history, its system of government, and the present economic situation. But the book also presents a picture of contemporary society and culture and of the Ethiopian people. It also discusses art, music, and cinema; class; gender; ethnicity; and education, as well as the language, food, and etiquette of the country. Readers will learn such fascinating details as the fact that coffee was first domesticated in Ethiopia more than 10,000 years ago and that modern Ethiopia comprises 77 different ethnic groups with their own distinct languages.

Constitutional Identity and Constitutionalism in Africa, 2024-01-23 In its modern history, Africa has experienced different waves of constitutional ordering. The latest democratisation wave, which began in the 1990s, has set the stage over the past decade for what is now a hotly debated issue: do recent, new, or fundamentally revised constitutions truly reflect an African constitutional identity? Thoughtfully navigating a contested field, this volume brings to the fore a number of foundational questions about African constitutionalism. *Constitutional Identity and Constitutionalism in Africa* asks whether the concept of constitutional identity clarifies our understanding of constitutional change in Africa, including an exploration of the relationship between constitutional identity and a country's unique culture(s) and histories. Building on this, contributions examine the persistent role of colonial heritages in shaping constitutional identity in post-Independence African nations, and the question of path-dependency. Given the enduring influence of the colonial experience, the volume asks how, why, and to what end African constitutions must be 'decolonised' to form an authentic constitutional identity. This theoretical insight is supplemented and further deepened by detailed case studies of South Africa, Ethiopia, Cape Verde, Cameroon, and Egypt and their diverse experience of constitutional continuity and change. This volume in the Stellenbosch Handbooks in

African Constitutional Law series, brings together contributions from established scholars and emerging voices on the study of constitutional processes. They provide an urgent critical analysis of existing paradigms, concepts and normative ideologies of modern African constitutionalism in the context of constitutional identity.

Ethiopia Siegbert Uhlig, David Appleyard, Alessandro Bausi, Wolfgang Hahn, Steven Kaplan, 2017 ETHIOPIA is a compendium on Ethiopia and Northeast Africa for travellers, students, businessmen, people interested in Africa, policymakers and organisations. In this book 85 specialists from 15 countries write about the land of our fossil ancestor 'Lucy', about its rock-hewn churches and national parks, about the coexistence of Christians and Muslims, and about strange cultures, but also about contemporary developments and major challenges to the region. Across ten chapters they describe the land and people, its history, cultures, religions, society and politics, as well as recent issues and unique destinations, documented with tables, maps, further reading suggestions and photos.

Eurasian Empires as Blueprints for Ethiopia Asnake Kefale, Tomasz Kamusella, Christophe Van der Beken, 2021-02-14 This book is a contribution to the global history of the transfer of political ideas, as exemplified by the case of modern Ethiopia. Like many non-European nation-states, Ethiopia adopted a western model of statehood, that is, the nation-state. Unlike the postcolonial polities that have retained the mode of statehood imposed on them by their colonial powers, Ethiopia was never successfully colonized leaving its ruling elite free to select a model of 'modern' (western) statehood. In 1931, via Japan, they adopted the model of unitary, ethnolinguistically homogenous nation-state, in turn copied by Tokyo in 1889 from the German Empire (founded in 1871). Following the Ethiopian Revolution (1974) that overthrew the imperial system, the new revolutionary elite promised to address the 'nationality question' through the marxist-leninist model. The Soviet model of ethnolinguistic federalism (originally derived from Austria-Hungary) was introduced in Ethiopia, first in 1992 and officially with the 1995 Constitution. To this day the politics of modern Ethiopia is marked by the tension between these two opposed models of the essentially central European type of statehood. The late 19th-century 'German-German' quarrel on the 'proper' model of national statehood for Germany - or more broadly, modern central Europe - remains the quarrel of Ethiopian politics nowadays. The book will be useful for scholars of Ethiopian and African history and politics, and also offers a case in comparative studies on the subject of different models of national statehood elsewhere.

From Parchment to Practice Tom Ginsburg, Aziz Z. Huq, 2020-04-30 Asks how the 'parchment' promises of a written constitution are translated into political practice, working through the many problems of constitutional implementation after adoption.

Manual of Romance Languages in Africa Ursula Reutner, 2023-12-18 With more than two thousand languages spread over its territory, multilingualism is a common reality in Africa. The main official languages of most African countries are Indo-

European, in many instances Romance. As they were primarily brought to Africa in the era of colonization, the areas discussed in this volume are thirty-five states that were once ruled by Belgium, France, Italy, Portugal, or Spain, and the African regions still belonging to three of them. Twenty-six states are presented in relation to French, four to Italian, six to Portuguese, and two to Spanish. They are considered in separate chapters according to their sociolinguistic situation, linguistic history, external language policy, linguistic characteristics, and internal language policy. The result is a comprehensive overview of the Romance languages in modern-day Africa. It follows a coherent structure, offers linguistic and sociolinguistic information, and illustrates language contact situations, power relations, as well as the cross-fertilization and mutual enrichment emerging from the interplay of languages and cultures in Africa.

Language Policy in Ethiopia Mekonnen Alemu Gebre Yohannes, 2021-02-18 This book examines the interplay and tensions between hegemonic and counter-hegemonic language policy and processes in Tigray, a regional state of Ethiopia, in the period of pre- and post-1991. Viewing language use and language policy as dynamic social and ideological processes, the book presents Ethiopia as an example of language policy creation and implementation over time, in a highly volatile political context. The case of Ethiopia is unique in that different language policies and practices were put in place as the country's leaders changed through political takeovers. Declared language policies were not always implemented, and those implemented were often protested. The book starts with an overview and review of language policy and planning, followed by a chapter on the history of such planning in Ethiopia. It then presents the methodology used for the study, and examines the appropriation of hegemonic LPP, patterns of resistance, schools and public sites as centers of resistance, and the emergence and development of specific patterns of language use in different regions of the country. The book ends with recommendations for future research, and draws the overall conclusion that since LPP is a dynamic and multilayered contextual process, official or de facto language policy is often undermined by overt or covert unofficial language policies, ideologies, mechanisms, and agents that result in different patterns of language use.

Handbook of Literacy in Africa R. Malatesha Joshi, 2023 This volume highlights the shortcomings concerning literacy development in Africa and collates the current available literature based on empirical research in various countries in a coherent manner. Further emphasized is how the current research can guide practical information to improve the literacy situation in Africa. The research studies will encompass various fields such as linguistics, neurosciences, and education and will provide future research directions and instructional recommendations to improve the literacy situation in Africa.

Diversity, Violence, and Recognition Elisabeth King, Cyrus Samii, 2020-03-30 When considering strategies to address violent conflict, scholars and policymakers debate the wisdom of recognizing versus avoiding reference to ethnic identities in government institutions. In *Diversity, Violence, and Recognition*, Elisabeth King and Cyrus Samii examine the reasons that governments choose to recognize ethnic identities and the consequences of such choices for peace. The authors introduce a

theory on the merits and risks of recognizing ethnic groups in state institutions, pointing to the crucial role of ethnic demographics. Through a global quantitative analysis and in-depth case studies of Burundi, Rwanda, and Ethiopia, they find promise in recognition. Countries that adopt recognition go on to experience less violence, more economic vitality, and more democratic politics, but these effects depend on which ethnic group is in power. King and Samii's findings are important for scholars studying peace, democracy, and development, and practically relevant to policymakers attempting to make these concepts a reality.

Ethnic Diversity, National Unity Theodoros A. Teklu, 2021-01-29 Although asserting one's ethnic identity is not morally wrong, the manner in which one ethnic group construes or relates to the ethnic other(s) can obliterate the bond of togetherness and create the insecurity of life. Ethiopia, which is home to anthropologically diverse ethno-linguistic groups, exhibits a proclivity to ethnic-based hostilities and conflicts. As a result of such hostilities, Ethiopia has suffered recurrent small- and large-scale deaths, and in the last half decade only millions have been internally displaced and live in dire conditions. In dialogue with perspectives from a wide range of disciplines such as history, law, sociology, philosophy, theology, and political thought, this multi-authored book aims at generating Christian moral resources for peaceful multiethnic togetherness. This interdisciplinary engagement is meant to buttress the task of interpreting ethnic diversity and national unity within both contemporary and historical Ethiopia, and articulating a Christian moral response to the crisis of togetherness ensuing from the malpractices of affirming ethnic identity and enacting national unity.

The World's Major Languages Bernard Comrie, 2017-07-05 This volume features over fifty of the world's languages and language families. The featured languages have been chosen based on the number of speakers, their role as official languages and their cultural and historical importance. Each language is looked at in depth, and the chapters provide information on both grammatical features and on salient features of the language's history and cultural role. This second edition has been updated and revised. Two new languages, Amharic and Javanese, have been included. This accessible volume will appeal to anyone with an interest in linguistics. Key features: Attention is paid to both grammatical and sociolinguistic features. Attention is concentrated on the world's major languages. Designed to be accessible to all readers with an interest in language.

Terminology and Language Planning Bassey Edem Antia, 2000-01-01 Changing socio-political landscapes, the dynamics of globalization, among other factors, are spawning new policy attitudes towards multilingualism, and putting language planning on the map. With respect to terminology, this book suggests that to be relevant and sustainable, language planning would have to define its mission as the deregulation of access to specialized knowledge, and correspondingly be founded on substantially different methods and theoretical bases: epistemology and ontology of specialized domains; research on language for special purposes (LSP) and collocations; corpus linguistics; and language engineering technologies.
